ALTITUDE ACQUISITION CORP.
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

Note 1 — Organization and Business Operations

Altitude Acquisition Corp. (the “Company”) is a newly organized blank check company incorporated in Delaware on August 12, 2020. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (“Business Combination”). The Company has not selected any specific Business Combination target and the Company has not, nor has anyone on its behalf, initiated any substantive discussions, directly or indirectly, with any Business Combination target with respect to the Business Combination.

As of December 31, 2020, the Company had not commenced any operations. All activity for the period from August 12, 2020 (inception) through December 31, 2020 relates to the Company’s formation and the initial public offering (“IPO”) described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income on cash and cash equivalents from the proceeds derived from the IPO (as defined below) and will recognize changes in the fair value of warrant liability as other income (expense).

Financing

The Company’s sponsor is Altitude Acquisition Holdco LLC, a Delaware limited liability company (the “Sponsor”).

The registration statement for the Company’s IPO (as described below) was declared effective by the U.S. Securities and Exchange Commission (the “SEC”) on December 8, 2020 (the “Effective Date”). On December 11, 2020, the Company consummated the IPO of 30,000,000 units (the “Units” and, with respect to the shares of Class A common stock included in the Units sold, the “Public Shares”), including the issuance of 3,900,000 Units as a result of the partial exercise of the underwriters’ over-allotment option, at \$10.00 per Unit generating gross proceeds of \$300,000,000, which is described in Note 3.

Simultaneously with the closing of the IPO, the Company consummated the sale of an aggregate of 8,000,000 warrants (the “Private Placement Warrants”) at a price of \$1.00 per warrant in a private placement to the Company’s Sponsor, generating gross proceeds to the Company of \$8,000,000, which is described in Note 4.

Trust Account

Following the closing of the IPO on December 11, 2020, an amount of \$300,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the IPO and the sale of the Private Placement Warrants was placed in a trust account (the “Trust Account”) which was invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations, until the earlier of: (a) the completion of the Company’s initial Business Combination, (b) the redemption of any Public Shares properly submitted in connection with a stockholder vote to amend the Company’s amended and restated certificate of incorporation, and (c) the redemption of the Company’s Public Shares if the Company is unable to complete the initial Business Combination within eighteen months from December 11, 2020 (the “Combination Period”), the closing of the IPO.

Initial Business Combination

The Company will provide its public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of the initial Business Combination either (i) in connection with a stockholder meeting called to approve the initial Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a proposed initial Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The stockholders will be entitled to redeem their shares for a pro rata portion of the amount then on deposit in the Trust Account (initially approximately \$10.00 per share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations).

Table of Contents

The shares of common stock subject to redemption will be recorded at a redemption value and classified as temporary equity upon the completion of the IPO, in accordance with Accounting Standards Codification (“ASC”) Topic 480 “*Distinguishing Liabilities from Equity*.” In such case, the Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 upon such consummation of a Business Combination and, if the Company seeks stockholder approval, a majority of the issued and outstanding shares voted are voted in favor of the Business Combination.

The Company has eighteen months from the closing of the IPO on December 11, 2020 to consummate a Business Combination. However, if the Company is unable to complete a Business Combination within the Combination Period, the Company will redeem 100% of the outstanding public shares for a pro rata portion of the funds held in the Trust Account, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to the Company to pay its franchise and income taxes, divided by the number of then outstanding public shares, subject to applicable law and as further described in registration statement, and then seek to dissolve and liquidate.

The Sponsor, officers and directors have agreed to (i) waive their redemption rights with respect to their founder shares and public shares in connection with the completion of the initial Business Combination, (ii) waive their redemption rights with respect to their founder shares and public shares in connection with a stockholder vote to approve an amendment to the Company’s amended and restated certificate of incorporation, and (iii) waive their rights to liquidating distributions from the Trust Account with respect to their founder shares if the Company fails to complete the initial Business Combination within the Combination Period.

Liquidation

The Company’s Sponsor has agreed that it will be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has entered into a written letter of intent, confidentiality or similar agreement or Business Combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company’s indemnity of the underwriters of the IPO against certain liabilities, including liabilities under the Securities Act. However, the Company has not asked its Sponsor to reserve for such indemnification obligations, nor has the Company independently verified whether its Sponsor has sufficient funds to satisfy its indemnity obligations and believe that the Company’s Sponsor’s only assets are securities of the Company. Therefore, the Company cannot assure that its Sponsor would be able to satisfy those obligations.

Liquidity

As of March 31, 2021, the Company had cash outside the Trust Account of \$413,395 available for working capital needs, and a working capital of \$792,430.

Prior to the completion of the IPO, the Company’s liquidity needs had been satisfied through a payment from the Sponsor of \$25,000 for the founder shares, the loan under an unsecured promissory note from the Sponsor of \$275,000, and advances from sponsor of \$634,447. Subsequent to the consummation of the Initial Public Offering and Private Placement, the Company’s liquidity needs have been satisfied through the proceeds from the consummation of the Private Placement not held in the Trust Account.

In addition, in order to finance transaction costs in connection with an initial Business Combination, the Company’s Sponsor or an affiliate of the Sponsor or certain of the Company’s officers and directors may, but are not obligated to, provide the Company Working Capital Loans (see Note 5). To date, there were no amounts outstanding under any Working Capital Loans.

The Company does not believe it will need to raise additional funds in order to meet the expenditures required for operating its business. However, if the Company’s estimates of the costs of undertaking in-depth due diligence and negotiating Business Combination is less than the actual amount necessary to do so, the Company may have insufficient funds available to operate its business prior to the Business Combination. Moreover, the Company will need to raise additional capital through loans from its Sponsor, officers, directors, or third parties. None of the Sponsor, officers or directors are under any obligation to advance funds to, or to invest in, the Company. If the Company is unable to raise additional capital, it may be required to take additional measures to conserve liquidity, which could include, but not necessarily be limited to, curtailing operations, suspending the pursuit of its business plan, and reducing overhead expenses. The Company cannot provide any assurance that new financing will be available to it on commercially acceptable terms, if at all.

Note 2 — Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed financial statements of the Company are presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America and pursuant to the rules and regulations of the SEC, and reflect all adjustments, consisting only of normal recurring adjustments, which are, in the opinion of management, necessary for the fair presentation of the financial position as of March 31, 2021 and the results of operations and cash flows for the period presented and should be read in conjunction with the Company's prospectus for its IPO as filed with the SEC on December 10, 2020. The interim results for the three months ended March 31, 2021 are not necessarily indicative of the results to be expected for the year ending December 31, 2021 or for any future periods.

The accompanying unaudited condensed financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Form 10-K/A filed by the Company with the SEC on June 1, 2021.

Emerging Growth Company Status

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act of 1933, as amended, (the "Securities Act"), as modified by the Jumpstart our Business Startups Act of 2012, (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statement with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of these condensed financial statements in conformity with US GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of these condensed financial statements.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of these condensed financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. One of the more significant accounting estimates included in these condensed financial statements is the determination of the fair value of the warrant liability. Accordingly, the actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. As of March 31, 2021 and December 31, 2020, the Company did not have any cash equivalents.

Marketable securities held in Trust Account

At March 31, 2021 and December 31, 2020, the assets held in the Trust Account were substantially held in mutual funds comprised of U.S. Treasury Bills.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. At March 31, 2021 and December 31, 2020, the Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

Class A Common Stock Subject to Possible Redemption

The Company accounts for its Class A common stock subject to possible redemption in accordance with the guidance in ASC Topic 480 *Distinguishing Liabilities from Equity*. Class A common stock subject to mandatory redemption (if any) are classified as liability instruments and are measured at fair value. Conditionally redeemable Class A common stock (including Class A common stock that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company’s control) are classified as temporary equity. At all other times, Class A common stock are classified as stockholders’ equity. The Company’s Class A common stock feature certain redemption rights that are considered to be outside of the Company’s control and subject to the occurrence of uncertain future events. Accordingly, as of March 31, 2021 and December 31, 2020, 24,549,510 and 25,195,139 shares of Class A common stock subject to possible redemption were presented at redemption value as temporary equity, outside of the stockholders’ equity section of the Company’s condensed balance sheets.

Net Income (Loss) Per Common Share

Net income (loss) per common stock is computed by dividing net income (loss) by the weighted-average number of common stock outstanding for the period. The calculation of diluted income (loss) per common stock does not consider the effect of the warrants issued in connection with the (i) IPO, and (ii) Private Placement since the exercise of the warrants are contingent upon the occurrence of future events and the inclusion of such warrants would be anti-dilutive. The warrants are exercisable to purchase 23,000,000 shares of Class A common stock in the aggregate.

The Company’s statement of operations includes a presentation of net income per share of Class A common stock subject to possible redemption in a manner similar to the two-class method of loss per common stock. Net income per common stock, basic and diluted, for redeemable Class A common stock is calculated by dividing the interest income earned on the Trust Account, net of applicable franchise and income taxes, by the weighted average number of redeemable Class A common stock outstanding since original issuance.

Net loss per share of common stock, basic and diluted, for non-redeemable Class B common stock is calculated by dividing the net loss, adjusted for income attributable to redeemable Class B common stock, by the weighted average number of non-redeemable Class B common stock outstanding for the period. Non-redeemable Class B common stock include the Founder Shares as these common stocks do not have any redemption features and do not participate in the income earned on the Trust Account.

Offering Costs

The Company complies with the requirements of ASC 340-10-S99-1 and SEC Staff Accounting Bulletin (SAB) Topic 5A—“Expenses of Offering”. Offering costs consist of legal, accounting, underwriting fees and other costs that are directly related to the IPO. Offering costs are allocated to the separable financial instruments issued in the IPO based on a relative fair value basis compared to total proceeds received. Offering costs associated with warrant liabilities is expensed, and offering costs associated with the Class A common stock are charged to the stockholders’ equity.

Fair Value Measurements

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- “Level 1”, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- “Level 2”, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- “Level 3”, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

The fair value of the Private Placement Warrants is based on a valuation model utilizing management judgment and pricing inputs from observable and unobservable markets with less volume and transaction frequency than active markets. Significant deviations from these estimates and inputs could result in a material change in fair value. The fair value of the Private Placement Warrants is classified as Level 3. The fair value of the Public Warrants is classified as Level 1. See Note 6 for additional information on assets and liabilities measured at fair value.

Derivative Financial Instruments

The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with ASC Topic 815, “*Derivatives and Hedging*”. Derivative instruments are recorded at fair value on the grant date and re-valued at each reporting date, with changes in the fair value reported in the statements of operations. Derivative assets and liabilities are classified on the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date. The Company has determined the warrants are a derivative instrument.

Table of Contents

FASB ASC 470-20, Debt with Conversion and Other Options addresses the allocation of proceeds from the issuance of convertible debt into its equity and debt components. The Company applies this guidance to allocate IPO proceeds from the Units between Class A common stock and warrants, using the residual method by allocating IPO proceeds first to fair value of the warrants and then the Class A common stock.

Income Taxes

The Company accounts for income taxes under ASC 740 “*Income Taxes*” (“ASC 740”). ASC 740 requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statement and tax basis of assets and liabilities and for the expected future tax benefit to be derived from tax loss and tax credit carry forwards. ASC 740 additionally requires a valuation allowance to be established when it is more likely than not that all or a portion of deferred tax assets will not be realized.

ASC 740 also clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim period, disclosure and transition.

The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of March 31, 2020 and December 31, 2020. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

The Company has identified the United States as its only “major” tax jurisdiction.

The Company may be subject to potential examination by federal and state taxing authorities in the areas of income taxes. These potential examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with federal and state tax laws. The Company’s management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

The provision for income taxes was deemed immaterial for the three months ended March 31, 2021.

Recent Accounting Standards

Management does not believe that any recently issued, but not effective, accounting standards, if currently adopted, would have a material effect on the Company’s condensed financial statements.

In August 2020, the FASB issued Accounting Standards Update (“ASU”) No. 2020-06, Debt —Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging —Contracts in Entity’s Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity (“ASU 2020-06”), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception, and it simplifies the diluted earnings per share calculation in certain areas. The Company adopted ASU 2020-06 on January 1, 2021. Adoption of the ASU did not impact the Company’s financial position, results of operations or cash flows.

Risks and Uncertainties

On January 30, 2020, the World Health Organization (“WHO”) announced a global health emergency because of a new strain of coronavirus (the “COVID-19 outbreak”). In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally. The full impact of the COVID-19 outbreak continues to evolve. The impact of the COVID-19 outbreak on the Company’s financial position will depend on future developments, including the duration and spread of the outbreak and related advisories and restrictions. These developments and the impact of the COVID-19 outbreak on the financial markets and the overall economy are highly uncertain and cannot be predicted. If the financial markets and/or the overall economy are impacted for an extended period, the Company’s financial position may be materially adversely affected. Additionally, the Company’s ability to complete an initial Business Combination may be materially adversely affected due to significant governmental measures being implemented to contain the COVID-19 outbreak or treat its impact, including travel restrictions, the shutdown of businesses and quarantines, among others, which may limit the

Table of Contents

Company's ability to have meetings with potential investors or affect the ability of a potential target company's personnel, vendors and service providers to negotiate and consummate an initial Business Combination in a timely manner. The Company's ability to consummate an initial Business Combination may also be dependent on the ability to raise additional equity and debt financing, which may be impacted by the COVID-19 outbreak and the resulting market downturn. The balance sheet does not include any adjustments that might result from the outcome of this uncertainty.

Note 3 — Initial Public Offering

On December 11, 2020, the Company sold 30,000,000 Units, including 3,900,000 Units issued pursuant to the underwriters' partial exercise of their over-allotment option, at a purchase price of \$10.00 per Unit. Each Unit consists of one share of Class A common stock, and one-half of one warrant to purchase one share of Class A common stock. Each whole warrant will entitle the holder to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment. Each warrant will become exercisable on the later of 30 days after the completion of the initial Business Combination or 12 months from the closing of the IPO and will expire five years after the completion of the initial Business Combination, or earlier upon redemption or liquidation.

The Company paid an underwriting fee at the closing of the IPO of \$6,000,000. As of March 31, 2021 and December 31, 2020, an additional fee of \$10,500,000 (see Note 7) was deferred and will become payable upon the Company's completion of an initial Business Combination. The deferred portion of the fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event the Company completes its initial Business Combination.

Warrants

Each whole warrant will entitle the holder to purchase one share of the Company's Class A common stock at a price of \$11.50 per share, subject to adjustment as discussed herein. In addition, if (x) the Company issues additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of its initial Business Combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by the Company's board of directors and, in the case of any such issuance to the Company's Sponsor or its affiliates, without taking into account any Founder Shares held by the Company's Sponsor or its affiliates, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the initial Business Combination on the date of the consummation of the initial Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Company's common stock during the 20 trading day period starting on the trading day prior to the day on which the Company consummates the initial Business Combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described below under "Redemption of warrants" will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

The warrants will become exercisable on the later of twelve months from the closing of the IPO or thirty days after the completion of its initial Business Combination, and will expire five years after the completion of the Company's initial Business Combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any shares of Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the shares of Class A common stock underlying the warrants is then effective and a prospectus is current. No warrant will be exercisable and the Company will not be obligated to issue shares of Class A common stock upon exercise of a warrant unless Class A common stock issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants. In no event will the Company be required to net cash settle any warrant. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the share of Class A common stock underlying such unit.

Table of Contents

Once the warrants become exercisable, the Company may call the warrants for redemption:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days' prior written notice of redemption (the "30-day redemption period") to each warrant holder; and
- if, and only if, the reported last sale price of the Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending three business days before the Company send the notice of redemption to the warrant holders.

If the Company calls the warrants for redemption as described above, the management will have the option to require any holder that wishes to exercise its warrant to do so on a "cashless basis." If the management takes advantage of this option, all holders of warrants would pay the exercise price by surrendering their warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the excess of the "fair market value" (defined below) over the exercise price of the warrants by (y) the fair market value. The "fair market value" shall mean the average reported last sale price of the Class A common stock for the ten trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants.

Note 4 — Private Placement

Simultaneously with the closing of the IPO, the Sponsor purchased an aggregate of 8,000,000 Private Placement Warrants at a purchase price of \$1.00 per Private Placement Warrant, generating gross proceeds to the Company of \$8,000,000. The proceeds from the sale of the Private Placement Warrants were added to the proceeds from the IPO held in the Trust Account.

The Private Placement Warrants are identical to the warrants sold in the IPO except that the Private Placement Warrants, so long as they are held by the Sponsor or its permitted transferees, (i) will not be redeemable by the Company, (ii) may not (including the Class A common stock issuable upon exercise of such Private Placement Warrants), subject to certain limited exceptions, be transferred, assigned or sold by the holders until 30 days after the completion of the Company's initial Business Combination, and (iii) may be exercised by the holders on a cashless basis and (iv) will be entitled to registration rights. No underwriting fees were paid with respect to such sale. The issuance of the Private Placement Warrants was made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act of 1933, as amended.

Note 5 — Related Party Transactions

Founder Shares

In August 2020, the Company issued 8,625,000 shares of Class B common stock to the Sponsor for \$25,000 in cash, or approximately \$0.003 per share (the "Founder Shares"). On November 30, 2020 the Sponsor surrendered an aggregate of 1,437,500 Founder Shares, which were cancelled. On December 8, 2020, as part of an upsizing of the Proposed Public Offering, the Company effected a stock split in which each issued share of Class B common stock that was outstanding was converted into one and forty-four one-thousandths shares of Class B common stock, resulting in an aggregate of 7,503,750 shares of Class B common stock issued and outstanding. All shares and associated amounts have been retroactively restated to reflect the share surrender and stock split. The Founder Shares included an aggregate of up to 978,750 shares subject to forfeiture if the over-allotment option is not exercised by the underwriters in full. On December 11, 2020, the underwriters partially exercised their over-allotment option, hence, 975,000 Founder Shares were no longer subject to forfeiture and 3,750 Founder Shares were forfeited for no consideration.

Table of Contents

The Sponsor has agreed not to transfer, assign or sell its Founder Shares until the earlier to occur of (A) one year after the completion of the Company's initial Business Combination or (B) subsequent to the Company's initial Business Combination, (x) if the last sale price of the Company's Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the Company's initial Business Combination, or (y) the date on which the Company completes a liquidation, merger, capital stock exchange or other similar transaction that results in all of its stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Promissory Note — Related Party

On August 12, 2020, the Company issued an unsecured promissory note to the Sponsor for an aggregate available principal amount of \$300,000 to be used for a portion of the expenses of the IPO. This loan is non-interest bearing, unsecured and due at the earlier of December 31, 2020 or the closing of the IPO. As of December 11, 2020, the total amount borrowed under the promissory note was \$275,000. The Company repaid the amount in full on December 16, 2020.

Due to Sponsor

On December 11, 2020, the Sponsor advanced the Company an aggregate of \$634,447. The Company repaid the amount in full on December 16, 2020.

Working Capital Loans

In order to finance transaction costs in connection with an initial Business Combination, the Sponsor or an affiliate of the Sponsor or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes an initial Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that an initial Business Combination does not close, the Company may use a portion of the working capital held outside the Trust Account to repay the Working Capital Loans but no proceeds from the Trust Account would be used to repay the Working Capital Loans. Up to \$1,500,000 of such Working Capital Loans may be convertible into warrants at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the Private Placement Warrants, including as to exercise price, exercisability and exercise period. At March 31, 2021 and December 31, 2020, no Working Capital Loans were outstanding.

Administrative Service Fee

The Company has agreed, commencing on the date of the securities of the Company are first listed on The Nasdaq Capital Market (the "Listing Date"), to pay an affiliate of the Company's Sponsor a monthly fee of an aggregate of \$10,000 for office space, utilities and secretarial and administrative support. Upon completion of the Company's initial Business Combination or its liquidation, the Company will cease paying these monthly fees. The Company accrued \$37,667 for the administrative service fee for the three months ended March 31, 2021.

Note 6 — Recurring Fair Value Measurements

The following table presents information about the Company's assets and liabilities that were measured at fair value on a recurring basis as of March 31, 2021 and indicates the fair value hierarchy of the valuation techniques the Company utilized to determine such fair value.

	March 31, 2021	Quoted Prices In Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)

The subsequent measurement of the Public Warrants for the three months ended March 31, 2021 is classified as Level 1 due to the use of an observable market quote in an active market. As of March 31, 2021, the aggregate value of Public Warrants was \$25,500,000.

The estimated fair value of the Private Placement Warrants on March 31, 2021 is determined using Level 3 inputs. Inherent in a Monte-Carlo simulation model are assumptions related to expected stock-price volatility (pre-merger and post-merger), expected term, dividend yield and risk-free interest rate. The Company estimates the volatility of its common stock based on management's understanding of the volatility associated with instruments of other similar entities. The risk-free interest rate is based on the U.S. Treasury Constant Maturity similar to the expected remaining life of the warrants. The expected life of the warrants is simulated based on management assumptions regarding the timing and likelihood of completing a business combination. The dividend rate is based on the historical rate, which the Company anticipates to remain at zero. The assumptions used in calculating the estimated fair values represent the Company's best estimate. However, inherent uncertainties are involved. If factors or assumptions change, the estimated fair values could be

materially different.

The key inputs into the Monte Carlo simulation model for the Private Placement Warrants were as follows at March 31, 2021:

<u>Input</u>	<u>March 31, 2021</u>
Expected term (years)	5.60
Expected volatility	24.4%
Risk-free interest rate	1.06%
Fair value of the common stock price	\$ 10.03

The following table sets forth a summary of the changes in the fair value of the Level 3 warrant liability for the three months ended March 31, 2021:

	<u>Warrant Liability</u>
Fair value as of December 31, 2020	\$ 33,807,463
Transfer out of Level 3 to Level 1	(25,500,000)
Revaluation of warrant liability included in other expense within the statement of operations for the three months ended March 31, 2021	5,996,188
Fair value as of March 31, 2021	<u>\$ 14,303,651</u>

Note 7 — Commitments and Contingencies

Registration Rights

The holders of the Founder Shares, Private Placement Warrants, and warrants that may be issued upon conversion of Working Capital Loans will have registration rights to require the Company to register a sale of any of its securities held by them pursuant to a registration rights agreement signed prior to or on the Effective Date. These holders are entitled to make up to three demands, excluding short form registration demands, that the Company registers such securities for sale under the Securities Act. In addition, these holders are entitled “piggy-back” registration rights.

Underwriting Agreement

The underwriters have a 45-day option from December 11, 2020 to purchase up to an additional 3,915,000 Units to cover over-allotments, if any. On December 11, 2020, the underwriters partially exercised their over-allotment option and purchased an additional 3,900,000 Units. The unexercised portion of the over-allotment option was forfeited.

On December 11, 2020, the underwriters were paid a cash underwriting fee of \$6,000,000, or 2% of the gross proceeds of the IPO. Additionally, the underwriters will be entitled to a deferred underwriting fee of \$10,500,000, or 3.5% of the gross proceeds of the IPO held in the Trust Account upon the completion of the Company’s initial Business Combination subject to the terms of the underwriting agreement.

Note 8 — Stockholders’ Equity

Preferred Stock — The Company is authorized to issue a total of 1,000,000 shares of preferred stock at par value of \$0.0001 each. At March 31, 2021 and December 31, 2020, there were no shares of preferred shares issued and outstanding.

Class A Common Stock — The Company is authorized to issue a total of 280,000,000 shares of Class A common stock at par value of \$0.0001 each. At March 31, 2021 and December 31, 2020, there were 5,450,490 and 4,804,861 shares of Class A common stock outstanding, excluding 24,549,510 and 25,195,139 shares of Class A common stock subject to possible redemption.

Class B Common Stock — The Company is authorized to issue a total of 20,000,000 shares of Class B common stock at par value of \$0.0001 each. After giving retroactive effect to the forfeiture of shares and subsequent split described in Note 5, there were 7,503,750 shares of Class B common stock issued and outstanding at December 11, 2020. The Founder Shares included an aggregate of up to 978,750 shares subject to forfeiture if the over-allotment option is not exercised by the underwriters in full. On December 11, 2020, the underwriters partially exercised their over-allotment option, hence, 975,000 Founder Shares were no longer subject to forfeiture and 3,750 Founder Shares were forfeited for no consideration. As of March 31, 2021 and December 31, 2020, there were 7,500,000 shares of Class B common stock issued and outstanding.

The Company’s initial stockholders have agreed not to transfer, assign or sell its Founder Shares until the earlier to occur of (A) one year after the completion of the Company’s initial Business Combination or (B) subsequent to the Company’s initial Business Combination, (x) if the last sale price of the Company’s Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the Company’s initial Business Combination, or (y) the date on which the Company completes a liquidation, merger, capital stock exchange or other similar transaction that results in all of its stockholders having the right to exchange their shares of common stock for cash, securities or other property. Any permitted transferees will be subject to the same restrictions and other agreements of the Company’s initial stockholders with respect to any Founder Shares.

Table of Contents

The shares of Class B common stock will automatically convert into shares of the Company's Class A common stock at the time of its initial Business Combination on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts offered in this prospectus and related to the closing of the initial Business Combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon the completion of the IPO plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the initial Business Combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial Business Combination or any private placement-equivalent units issued to the Sponsor or its affiliates upon conversion of loans made to the Company).

Holders of the Class A common stock and holders of the Class B common stock will vote together as a single class on all matters submitted to a vote of the Company's stockholders, with each share of common stock entitling the holder to one vote.

Note 9 — Subsequent Events

On June 2, 2021, the Company issued an unsecured promissory note to the Sponsor for an aggregate available principal amount of \$300,000 to be used for a portion of the expenses of the Business Combination. This loan is non-interest bearing, unsecured and due at the earlier of December 31, 2021 or the closing of the Business Combination. As of the date hereof, there were no borrowings under the promissory note.

The Company evaluated subsequent events and transactions that occurred after the balance sheet dates, up to the date which the financial statements were issued. Based upon this review, the Company did not identify any other subsequent events that would have required adjustment or disclosure in the condensed financial statement.

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “continue,” or the negative of such terms or other similar expressions. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other Securities and Exchange Commission (“SEC”) filings.

Overview

We are a blank check company incorporated on August 12, 2020 as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (a “Business Combination”). We consummated our Public Offering (as defined below) on December 11, 2020 and are currently in the process of locating suitable targets for our Business Combination. We intend to use the cash proceeds from our Public Offering and the Private Placement described below as well as additional issuances, if any, of our capital stock, debt or a combination of cash, stock and debt to complete the Business Combination.

We expect to incur significant costs in the pursuit of our initial Business Combination. We cannot assure you that our plans to raise capital or to complete our initial Business Combination will be successful.

We completed the sale of 30,000,000 units (the “Units” and, with respect to the shares of Class A common stock included in the Units sold, the “Public Shares”), including the issuance of 3,900,000 Units as a result of the partial exercise of the underwriters’ over-allotment option, at \$10.00 per Unit generating gross proceeds of \$300,000,000. Simultaneous with the closing of the Public Offering, we completed the sale of 8,000,000 warrants (the “Private Warrants”) at a price of \$1.00 per Private Warrant in a private placement to our sponsor, generating gross proceeds to the Company of \$8,000,000.

As of March 31, 2021, a total of \$300,000,000 of the net proceeds from the Public Offering (including the full exercise of the over-allotment option) and the Private Placements were in a trust account established for the benefit of the Company’s public shareholders. The trust fund account is invested in interest-bearing U.S. government securities and the income earned on those investments is also for the benefit of our public shareholders.

Our management has broad discretion with respect to the specific application of the net proceeds of the Public Offering and the Private Placement, although substantially all of the net proceeds are intended to be applied generally towards consummating a business combination.

Results of Operations

As of March 31, 2021, we have not commenced any operations. All activity for the period from August 12, 2020 (inception) through March 31, 2021, relates to our formation and initial public offering (“Public Offering” or “IPO”), and, since the completion of the IPO, searching for a target to consummate a Business Combination. We will not generate any operating revenues until after the completion of a Business Combination, at the earliest. We will generate non-operating income in the form of interest income from the proceeds derived from the Public Offering and placed in the Trust Account (defined below).

Table of Contents

For the three months ended March 31, 2021, we had a net loss of \$6,456,287. We incurred \$466,358 of formation and operating costs and \$5,996,188 of change in fair value of warrant liability, offset by \$6,259 of earned interest income.

Liquidity and Capital Resources

As of March 31, 2021, we had cash outside our trust account of \$413,395, available for working capital needs. All remaining cash was held in the trust account and is generally unavailable for our use, prior to an initial business combination.

On December 11, 2020, we consummated the IPO of 30,000,000 Units (and, with respect to the common stock included in the Units being offered, the “public share”, the warrants included in the Units, the “public warrants” and the rights included in the Units, the “rights”), at \$10.00 per Unit, generating gross proceeds of \$300,000,000.

Simultaneously with the closing of the IPO, we consummated the sale of 8,000,000 warrants (the “Private Warrants”), at a price of \$1.00 per Private Warrant, generating gross proceeds of \$8,000,000.

In connection with the IPO, the underwriters were granted a 45-day option from the date of the prospectus (the “Over-Allotment Option”) to purchase up to 3,915,000 additional Units to cover over-allotments (the “Over-Allotment Units”), if any. On December 11, 2020, the underwriters partially exercised their Over-Allotment Option and purchased an additional 3,900,000 Units. The unexercised portion of the over-allotment option was forfeited.

Following our IPO and the sale of the Private Warrants, a total of \$300,000,000 (\$10.00 per Unit) was placed in the Trust Account. We incurred \$17,107,057 in IPO related costs, including \$6,000,000 of underwriting fees, \$10,500,000 of deferred underwriting discount and \$607,057 of other costs.

As of March 31, 2021, we had cash and marketable securities held in the Trust Account of \$300,006,329 (including approximately \$6,329 of interest income) consisting of mutual funds. Interest income on the balance in the Trust Account may be used by us to pay taxes.

For the three months ended March 31, 2021, cash used in operating activities was \$350,934. Net loss of \$6,456,287 was impacted by interest earned on marketable securities held in the Trust Account of \$6,247, change in fair value of warrant liability of \$5,996,188, and changes in operating assets and liabilities, which provided \$115,412 of cash for operating activities.

We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account (excluding the deferred underwriters’ discount) to complete our initial Business Combination. We may withdraw interest to pay our taxes and liquidation expenses if we are unsuccessful in completing a Business Combination. We estimate our annual franchise tax obligations to be \$200,000, which is the maximum amount of annual franchise taxes payable by us as a Delaware corporation per annum, which we may pay from funds from the Public Offering held outside of the trust account or from interest earned on the funds held in the trust account and released to us for this purpose. Our annual income tax obligations will depend on the amount of interest and other income earned on the amounts held in the trust account reduced by our operating expense and franchise taxes. We expect the interest earned on the amount in the trust account will be sufficient to pay our income taxes. To the extent that our equity or debt is used, in whole or in part, as consideration to complete our initial Business Combination, the remaining proceeds held in the trust account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

Further, our Sponsor, officers and directors or their respective affiliates may, but are not obligated to, loan us funds as may be required (the “Working Capital Loans”). If we complete a Business Combination, we would repay the Working Capital Loans. In the event that a Business Combination does not close, we may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans, but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Such Working Capital Loans would be evidenced by promissory notes. The notes would either be repaid upon consummation of a Business Combination, without interest, or, at the lender’s discretion. As of March 31, 2021, no Working Capital Loans have been issued.

[Table of Contents](#)

We do not believe we will need to raise additional funds in order to meet the expenditures required for operating our business. However, if our estimate of the costs of identifying a target business, undertaking in-depth due diligence and negotiating a Business Combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our Business Combination. Moreover, we may need to obtain additional financing either to complete our Business Combination or because we become obligated to redeem a significant number of our public shares upon consummation of our Business Combination, in which case we may issue additional securities or incur debt in connection with such Business Combination. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our Business Combination. If we are unable to complete our Business Combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the Trust Account. In addition, following our Business Combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

Off-Balance Sheet Financing Arrangements

We did not have any off-balance sheet arrangement as of March 31, 2021.

Contractual Obligations

As of March 31, 2021, we did not have any long-term debt, capital or operating lease obligations.

We entered into an administrative services agreement pursuant to which we will pay an affiliate of one of our directors for office space and secretarial and administrative services provided to members of our management team, in an amount not to exceed \$10,000 per month.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following as our critical accounting policies:

Derivative Financial Instruments

We evaluate our financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with ASC Topic 815, “*Derivatives and Hedging*”. Derivative instruments are recorded at fair value on the grant date and re-valued at each reporting date, with changes in the fair value reported in the statements of operations. Derivative assets and liabilities are classified on the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date. We have determined the warrants are a derivative instrument.

FASB ASC 470-20, Debt with Conversion and Other Options addresses the allocation of proceeds from the issuance of convertible debt into its equity and debt components. We apply this guidance to allocate IPO proceeds from the Units between Class A common stock and warrants, using the residual method by allocating IPO proceeds first to fair value of the warrants and then the Class A common stock.

Class A Common Stock Subject to Possible Redemption

We account for our Class A common stock subject to possible redemption in accordance with the guidance in the Financial Accounting Standards Board’s (“FASB”) Accounting Standards Codification (“ASC”) Topic 480 “*Distinguishing Liabilities from Equity*.” Common stock subject to mandatory redemption (if any) are classified as liability instruments and are measured at fair value. Conditionally redeemable Class A common stock (including common stock that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) are classified as temporary equity. At all other times, common stock are classified as stockholders’ equity. Our Class A common stock feature certain redemption rights that are considered to be outside of our control and subject to the occurrence of uncertain future events. Accordingly, at March 31, 2021 and December 31, 2020, 24,549,510 and 25,195,139 Class A common stock subject to possible redemption are presented as temporary equity, outside of the stockholders’ equity section of our balance sheet.

Net Income (Loss) Per Common Share

We comply with accounting and disclosure requirements of FASB ASC Topic 260, “Earnings Per Share.” Net income (loss) per common stock is computed by dividing net income (loss) by the weighted average number of common stock outstanding for the period. The calculation of diluted income (loss) per common stock does not consider the effect of the warrants issued in connection with the (i) IPO, and (ii) Private Placement since the exercise of the warrants are contingent upon the occurrence of future events and the inclusion of such warrants would be anti-dilutive. The warrants are exercisable to purchase 23,000,000 shares of common stock in the aggregate.

Table of Contents

The Company's statement of operations includes a presentation of income per share for Class A common stock subject to possible redemption in a manner similar to the two-class method of loss per common stock. Net income per Class A common stock, basic and diluted, for redeemable Class A common stock is calculated by dividing the interest income earned on the Trust Account, net of applicable franchise and income taxes, by the weighted average number of redeemable common stock outstanding since original issuance.

Net loss per common stock, basic and diluted, for non-redeemable Class A and B common stock is calculated by dividing the net loss, adjusted for income attributable to redeemable common stock, by the weighted average number of non-redeemable Class A and B common stock outstanding for the periods. Non-redeemable common stock includes the Founder Shares as these common stocks do not have any redemption features and do not participate in the income earned on the Trust Account.

Recent Accounting Standards

Our management does not believe that any recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying financial statements.

JOBS Act

The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We qualify as an "emerging growth company" under the JOBS Act and are allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates. Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an "emerging growth company," we choose to rely on such exemptions we may not be required to, among other things, (i) provide an independent registered public accounting firm's attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the independent registered public accounting firm's report providing additional information about the audit and the financial statements (auditor discussion and analysis), and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO's compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of this offering or until we are no longer an "emerging growth company," whichever is earlier.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Act of 1934, as amended (the "Exchange Act") and are not required to provide the information otherwise required under this item.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our chief executive officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended March 31, 2021, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based upon that evaluation, and in light of the SEC's Statement on Accounting and Reporting Considerations for Warrants Issued by Special Purpose Acquisition Companies, promulgated on April 12, 2021, our chief executive officer has concluded that, solely due to the Company's restatement of its financial statements to reclassify the Company's warrants as described in the 10-K/A filed June 1, 2021, a material weakness existed and our disclosure controls and procedures were not effective as of March 31, 2021.

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the quarter ended of March 31, 2021 covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

None.

Item 1A. Risk Factors.

Factors that could cause our actual results to differ materially from those in this Quarterly Report are any of the risks described in our Annual Report on Form 10-K/A filed with the SEC on June 1, 2021. Any of these factors could result in a significant or material adverse effect on our results of operations or financial condition. Additional risk factors not presently known to us or that we currently deem immaterial may also impair our business or results of operations.

As of the date of this Quarterly Report on Form 10-Q, there have been no material changes to the risk factors disclosed in our Annual Report on Form 10-K/A filed with the SEC on June 1, 2021. However, we may disclose changes to such factors or disclose additional factors from time to time in our future filings with the SEC.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Unregistered Sales of Equity Securities

On August 12, 2020, we issued to our Sponsor an aggregate of 8,625,000 Founder Shares in exchange for a capital contribution of \$25,000 at an average purchase price of approximately \$0.003 per share. On November 30, 2020, our Sponsor surrendered an aggregate of 1,437,500 Founder Shares to us for no consideration, resulting in our Sponsor holding 7,503,750 Founder Shares. On December 11, 2020 the underwriters' partially exercised their over-allotment option, and, as a result, 975,000 Founder Shares were no longer subject to forfeiture and 3,750 Founder Shares were forfeited for no consideration. Accordingly, this resulted in our Sponsor holding an aggregate of 7,500,000 Founder Shares. The foregoing issuance was made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

Simultaneously with the consummation of the Public Offering, the Company consummated a private placement of 8,000,000 Private Placement Warrants to Altitude Acquisition Holdco, LLC (the "Sponsor") at a purchase price of \$1.00 per Private Placement Warrant, generating gross proceeds to the Company of approximately \$8,000,000. Such securities were issued pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

Table of Contents

The Private Placement Warrants are the same as the Warrants sold as part of the Units in the Public Offering, except that the Private Placement Warrants are not transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants are exercisable on a cashless basis and are non-redeemable so long as they are held by the initial purchasers or their permitted transferees.

Use of Proceeds

On December 11, 2020, we consummated the Public Offering of 30,000,000 Units, including the issuance of 3,900,000 Units as a result of the underwriters' partial exercise of their over-allotment option.

The units were sold at an offering price of \$10.00 per unit, generating total gross proceeds of \$300,000,000. Cantor Fitzgerald & Co. as the sole book running manager and Odeon Capital Group, LLC acted as lead manager of the offering. The securities sold in the Public Offering were registered under the Securities Act on a registration statement on Form S-1 (No. 333-249071), filed with the SEC on September 25, 2020, as amended. The SEC declared the registration statement effective on December 8, 2020.

Of the gross proceeds received from the Public Offering and private placement of Private Placement Warrants, \$300,000,000 was placed in the Trust Account. We paid a total of \$6,000,000 in underwriting fees and \$607,057 for other costs and expenses related to the Public Offering. In addition, the underwriters agreed to defer \$10,500,000 in underwriting fees.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

Notice of Failure to Satisfy a Continued Listing Rule or Standard.

On May 28, 2021, the Company received a notice from the Listing Qualifications Department of Nasdaq indicating that the Company is not in compliance with Nasdaq Listing Rule 5250(c)(1) because it has not yet filed this Quarterly Report on Form 10-Q with the SEC on or before May 24, 2021, the extended period provided for the filing under Rule 12b-25(b) of the Securities Exchange Act of 1934, as amended. Nasdaq Listing Rule 5250(c)(1) requires listed companies to timely file all required periodic financial reports with the SEC.

Nasdaq informed the Company that, under the Nasdaq's listing rules, the Company has 60 calendar days from the date of the initial Nasdaq notification letter, or until July 27, 2021, to file this Quarterly Report on Form 10-Q with the SEC. The Nasdaq notice has no immediate impact on the listing or trading of the Company's units, common stock or warrants on Nasdaq.

Subsequent Events

On June 2, 2021, the Company issued an unsecured promissory note to the Sponsor for an aggregate available principal amount of \$300,000 to be used for a portion of the expenses of the Business Combination. This loan is non-interest bearing, unsecured and due at the earlier of December 31, 2021 or the closing of the Business Combination. As of the date hereof, there were no borrowings under the promissory note.

THIS PROMISSORY NOTE ("NOTE") HAS NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"). THIS NOTE HAS BEEN ACQUIRED FOR INVESTMENT ONLY AND MAY NOT BE SOLD, TRANSFERRED OR ASSIGNED IN THE ABSENCE OF REGISTRATION OF THE RESALE THEREOF UNDER THE SECURITIES ACT OR AN OPINION OF COUNSEL REASONABLY SATISFACTORY IN FORM, SCOPE AND SUBSTANCE TO THE COMPANY THAT SUCH REGISTRATION IS NOT REQUIRED.

PROMISSORY NOTE

Principal Amount: \$300,000

Dated as of June 2, 2021

Altitude Acquisition Corp., a Delaware corporation (the "**Maker**"), promises to pay to the order of Altitude Acquisition Holdco LLC or its registered assigns or successors in interest (the "**Payee**"), or order, the principal sum of Three Hundred Thousand Dollars (\$300,000) or such lesser amount as shall have been advanced to Payee to Maker and shall remain unpaid under this Note on the Maturity Date (as defined below) in lawful money of the United States of America, on the terms and conditions described below. All payments on this Note shall be made by check or wire transfer of immediately available funds or as otherwise determined by the Maker to such account as the Payee may from time to time designate by written notice in accordance with the provisions of this Note.

1. **Principal.** The entire unpaid principal balance of this Note shall be payable on the earlier of: (i) December 31, 2021 or (ii) the date on which Maker consummates an initial business combination (such earlier date, the "**Maturity Date**"). The principal balance may be prepaid at any time. Under no circumstances shall any individual, including but not limited to any officer, director, employee or stockholder of the Maker, be obligated personally for any obligations or liabilities of the Maker hereunder.

2. **Drawdown Requests.** Maker and Payee agree that Maker may request, from time to time, up to Three Hundred Thousand Dollars (\$300,000) in drawdowns under this Note to be used for costs and expenses related to Maker's initial business combination (the "**Business Combination**"). Principal of this Note may be drawn down from time to time prior to the Maturity Date upon written request from Maker to Payee (each, a "**Drawdown Request**"). Each Drawdown Request must state the amount to be drawn down, and must not be an amount less than Ten Thousand Dollars (\$10,000). Payee shall fund each Drawdown Request no later than three (3) business days after receipt of a Drawdown Request; provided, however, that the maximum amount of drawdowns outstanding under this Note at any time may not exceed Three Hundred Thousand Dollars (\$300,000). No fees, payments or other amounts shall be due to Payee in connection with, or as a result of, any Drawdown Request by Maker.

3. **Interest.** No interest shall accrue on the unpaid principal balance of this Note.

4. **Application of Payments.** All payments shall be applied first to payment in full of any costs incurred in the collection of any sum due under this Note, including (without limitation) reasonable attorney's fees, then to the payment in full of any late charges and finally to the reduction of the unpaid principal balance of this Note.

5. **Events of Default.** The following shall constitute an event of default (“**Event of Default**”):

(a) Failure to Make Required Payments. Failure by Maker to pay the principal amount due pursuant to this Note within five (5) business days of the date specified above.

(b) Voluntary Bankruptcy, Etc. The commencement by Maker of a voluntary case under any applicable bankruptcy, insolvency, reorganization, rehabilitation or other similar law, or the consent by it to the appointment of or taking possession by a receiver, liquidator, assignee, trustee, custodian, sequestrator (or other similar official) of Maker or for any substantial part of its property, or the making by it of any assignment for the benefit of creditors, or the failure of Maker generally to pay its debts as such debts become due, or the taking of corporate action by Maker in furtherance of any of the foregoing.

(c) Involuntary Bankruptcy, Etc. The entry of a decree or order for relief by a court having jurisdiction in the premises in respect of Maker in an involuntary case under any applicable bankruptcy, insolvency or other similar law, or appointing a receiver, liquidator, assignee, custodian, trustee, sequestrator (or similar official) of Maker or for any substantial part of its property, or ordering the winding-up or liquidation of its affairs, and the continuance of any such decree or order unstayed and in effect for a period of 60 consecutive days.

6. **Remedies.**

(a) Upon the occurrence of an Event of Default specified in Section 4(a) hereof, Payee may, by written notice to Maker, declare this Note to be due immediately and payable, whereupon the unpaid principal amount of this Note, and all other amounts payable hereunder, shall become immediately due and payable without presentment, demand, protest or other notice of any kind, all of which are hereby expressly waived, anything contained herein or in the documents evidencing the same to the contrary notwithstanding.

(b) Upon the occurrence of an Event of Default specified in Sections 5(b) or 5(c), the unpaid principal balance of this Note, and all other sums payable with regard to this Note, shall automatically and immediately become due and payable, in all cases without any action on the part of Payee.

7. **Waivers.** Maker and all endorsers and guarantors of, and sureties for, this Note waive presentment for payment, demand, notice of dishonor, protest, and notice of protest with regard to the Note, all errors, defects and imperfections in any proceedings instituted by Payee under the terms of this Note, and all benefits that might accrue to Maker by virtue of any present or future laws exempting any property, real or personal, or any part of the proceeds arising from any sale of any such property, from attachment, levy or sale under execution, or providing for any stay of execution, exemption from civil process, or extension of time for payment; and Maker agrees that any real estate that may be levied upon pursuant to a judgment obtained by virtue hereof or any writ of execution issued hereon, may be sold upon any such writ in whole or in part in any order desired by Payee.

8. **Unconditional Liability.** Maker hereby waives all notices in connection with the delivery, acceptance, performance, default, or enforcement of the payment of this Note, and agrees that its liability shall be unconditional, without regard to the liability of any other party, and shall not be affected in any manner by any indulgence, extension of time, renewal, waiver or modification granted or consented to by Payee, and consents to any and all extensions of time, renewals, waivers, or modifications that may be granted by Payee with respect to the payment or other provisions of this Note, and agrees that additional makers, endorsers, guarantors, or sureties may become parties hereto without notice to Maker or affecting Maker's liability hereunder.

9. **Notices.** All notices, statements or other documents which are required or contemplated by this Note shall be: (i) in writing and delivered personally or sent by first class registered or certified mail, overnight courier service or facsimile or electronic transmission to the address designated in writing, (ii) by facsimile to the number most recently provided to such party or such other address or fax number as may be designated in writing by such party and (iii) by electronic mail, to the electronic mail address most recently provided to such party or such other electronic mail address as may be designated in writing by such party. Any notice or other communication so transmitted shall be deemed to have been given on the day of delivery, if delivered personally, on the business day following receipt of written confirmation, if sent by facsimile or electronic transmission, one (1) business day after delivery to an overnight courier service or five (5) days after mailing if sent by mail.

10. **Construction.** THIS NOTE SHALL BE CONSTRUED AND ENFORCED IN ACCORDANCE WITH THE LAWS OF NEW YORK, WITHOUT REGARD TO CONFLICT OF LAW PROVISIONS THEREOF.

11. **Severability.** Any provision contained in this Note which is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining provisions hereof, and any such prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction.

12. **Trust Waiver.** Notwithstanding anything herein to the contrary, the Payee hereby waives any and all right, title, interest or claim of any kind ("**Claim**") in or to any distribution of or from the trust account to be established in which the proceeds from the Maker's initial public offering of its securities (the "**IPO**") conducted by the Maker (including the deferred underwriters discounts and commissions) and the proceeds of the sale of the warrants issued in the private placement that occurred prior to the consummation of the IPO are to be deposited, as described in greater detail in the registration statement and prospectus filed with the Securities and Exchange Commission on December 8, 2020 in connection with the IPO, and hereby agrees not to seek recourse, reimbursement, payment or satisfaction for any Claim against the trust account for any reason whatsoever.

13. **Amendment; Waiver.** Any amendment hereto or waiver of any provision hereof may be made with, and only with, the written consent of the Maker and the Payee.

14. **Assignment.** No assignment or transfer of this Note or any rights or obligations hereunder may be made by any party hereto (by operation of law or otherwise) without the prior written consent of the other party hereto and any attempted assignment without the required consent shall be void.

IN WITNESS WHEREOF, Maker, intending to be legally bound hereby, has caused this Note to be duly executed by the undersigned as of the day and year first above written.
